Tarta Kid

Tarta Kid is a brand new transferable **Early Intervention Seat** that redefines the concept of paediatric seating support.

A **multifunctional seating solution**, the Tarta Kid provides comfort while supporting the ergonomic needs of a child between **6 months to 3 years**, during their growth and physical development.

Tarta Kid helps to enhance the development of babies and young infants, improving posture and function, which in turn improves their communication, sensory perception, and overall well-being.

Features and Benefits

Adjustable

The shell of the Tarta Kid is made from mouldable aeronautic aluminium which allows anyone to adjust the shape to support the child.

This material allows the immediate alteration of height, depth, width, and incline. No tools necessary!

Design

The aesthetically appealing design has been devised so the Tarta Kid can be incorporated easily into any home.

Machine Washable at 40°

The durable fabric can be removed and machine washed at up to 40°.

Comfort

Foam and microfiber fabric pads provide a unique feeling of security and softness.

Supportive

Tarta Kid provides soft yet sturdy postural support by hugging the child within its lateral arms, embracing them while they are seated.

Multifunctional

Tarta Kid has been designed to be used in different situations during the day. From chair to stroller, couch to restaurant table, etc.

With four changeable configurations available for the one system, Tarta Kid offers versatility like no other Early Intervention Seat on the market.

All Tarta Kid products have been carefully inspected before shipping, and have a 12 month warranty which does not cover normal wear or misuse.
